### Bilateral Meetings

- Thursday (1:30pm - 6:00pm)
- Friday (9:00am - 12:00pm)
- Friday (12:00pm - 4:00pm)

#### Description

**Gpi Group** is a group of companies held or controlled by parent company **Gpi SpA**, which has been operating in the **healthcare and social services market since 1988**.

This alliance combines the range of skills of the companies involved with the aim of extending and improving the services offered.

Our **core business is healthcare and social services and solutions**. Our products are targeted at both the **public and private sector** and include **medical supply logistics**, home automation and home assistance, in addition to complete and integrated information systems such as Contact Centre and Front Office services.

We also provide other specialized services, such as: **Business Intelligence and Data Warehousing, Web tools, e-payment (POS) and e-commerce systems (POS), infrastructures and technical services**.

Our in-depth and articulated knowledge of the world of ICT allows us to extend the services we offer with targeted design, development and consultancy services.

**GPI Group is constantly expanding in terms of jobs, turnover and investment** in research and training. Research and innovation is a core value for our Group: we are convinced that a strong relation with Higher Education can provide direction and vision to our activities. **The GPI Research Centre** was set up with precisely this aim, to promote research and the spread of scientific, technological, functional and process knowledge applied mainly in the sectors of e-health, e-welfare and well-being. We are among the founders of the Health.

Our headquarters are in Trento, and we have numerous branches spread out in **Italy and abroad**. We have more than 700 clients working with our solutions:

- Healthcare Authorities
- Public and private hospitals
- Community Pharmacies
- Daycare centres
- Residential healthcare centres
- Nursing homes

- Childcare centres
- Cooperatives
- Credit institutions
- Retailers
