Bilateral Meetings

- Thursday (1:30pm - 6:00pm)
- Friday (9:00am - 12:00pm)

Description

Doc International KB EOOD is a specialized trade company, distributor of innovative medical equipment and consumables. We are connected with the largest private Hospital, situated in Central Bulgaria - Hospital Trakia - <http://www.trakiahospital.com/en/> as its main supplier of equipment and we have potential to be a distributor and reference center for presentations, demonstrations, clinical researches, live cases and training of physicians with the high-tech medical devices and disposables.

Doc International KB EOOD is official distributor for Bulgaria of:

- Angiodroid S.r.l. Italy - manufacturer of ANGIODROID® - the world's first automatic injector of CO2 (carbon dioxide) as a contrast media in peripheral angiography procedures dedicated to interventional radiology, vascular surgery and invasive cardiology.
- World Innovative Technology Inc. USA - manufacturer of light lead-free products for radiation protection RADPAD® - the gold standard in radiation protection, reducing scattered radiation up to 95%.
- Rand S.r.l Italy - manufacturer of Performer HT® - an advanced system for intraperitoneal/Intrapleural Hyperthermic perfusion (HIPEC) and Isolated Limb/Organ Hyperthermic perfusion.

The company is looking for new potential partners, manufacturers of innovative medical devices, tools and general hospital disposables.
