Bilateral Meetings

- Thursday (1:30pm - 6:00pm)
- Friday (9:00am - 12:00pm)

Description

Mystronik is a biomedical innovation lab in one of the biggest technology development zones of Turkey. Mystronik can co-operate in projects with its expert team in biomedical field. The company is working on a system for determining the accurate death time in criminal cases. The project has a great importance in terms of providing scientific progress in criminal cases and creating a new research area for minimizing the margin of error in determining the time of death.
